How to quote (3 steps)

1. **Product mix** — Website only, Platform only, or Full Stack (both).
2. **Platform tier** — Essentials / Growth / Complete (by modules).
3. **Customization** — Add billable extras only when the client needs work beyond standard configuration.

Quote = Build fee + Monthly retainer (+ any customization / add-ons).

Competitive positioning (use in conversations)

Competitor / alternative	Typical market cost	What they get	LaunchPage edge
Tekmetric / Shopmonkey / AutoLeap	~\$199–\$499/mo	Shared auto-shop SaaS; no custom company website	Private branded build; website + ops connected

Fullbay (diesel / heavy-duty)	~\$188–\$318/mo + ~\$89–\$119 per extra user	HD shop SaaS; 5 users often ≈ \$540–\$790/mo	Unlimited staff seats in retainer; workflows tailored
Shop-Ware / Protractor	~\$279–\$1,000+/mo	Premium shared platforms	Mid-market TCO; keep only needed modules
Agency website only	~\$5k–\$15k build + ~\$150–\$400/mo	Marketing site; ops still on paper / other tools	SEO-built site for ranking and operations in one partner
Custom software firm	Often \$40k–\$100k+ build	Fully bespoke; long timeline	Reference platform → faster delivery, mid-market price

Talk track:

*You're not renting a shared auto-shop tool. You get a **company-owned branded website built for search ranking** and a **private operations platform** shaped around how your team works — with hosting and support in the monthly retainer.*

Step 1 — Product mix

Package	Build	Monthly retainer	Includes
Website only	\$5,500	\$179	Branded marketing site with SEO for ranking , lead form, domain help, hosting, backups, minor content edits, full multi-language translation (100+ languages)
Platform only	From \$9,500	From \$299	Private staff workspace (tier pricing in Step 2). No public website. Full multi-language translation included
Full Stack (recommended)	From \$12,500	From \$399	SEO-ready website + platform connected (web leads → ops inbox). ~\$2,500 less than buying both separately. Full multi-language translation on website and platform

Website SEO (included with Website only and Full Stack)

Every LaunchPage public website is built so the company can **rank in Google and other search engines** for local and service searches — not just look good as a brochure.

SEO work included in the build	What sales can say
Search-friendly page titles, meta descriptions, and headings	"Each page is set up so Google understands who you are and what you do."
Local business signals (NAP consistency, service area, contact details)	"We structure the site around your location and service area."
Clean URLs, mobile-friendly layout, and fast page structure	"Mobile and speed matter for ranking — the site is built for both."

Service and location-oriented page content	"Services and emergency/commercial pages target how customers actually search."
Sitemap / indexing-ready structure at launch	"We launch the site ready to be found and indexed."

SEO ongoing in the website retainer	What sales can say
Keep titles, descriptions, and key pages accurate as content changes	"Ranking setup doesn't go stale when you update services or hours."
Technical health (hosting, SSL, uptime, crawlable pages)	"We keep the site healthy so search engines can keep finding it."

Do say: The website is **SEO-built for ranking** — structured, local, and search-ready from day one.

Don't say: Guaranteed #1 rankings, specific keyword positions, or paid Google Ads results (ads are separate and not included).

Step 2 — Platform feature tiers

Pick the tier that matches the modules the client needs.

Full Stack = Website package + that platform tier (bundle discount already applied).

Tier	Modules included	Platform only	Full Stack	Best for
Essentials	Dashboard, Leads*, Customers, Vehicles/Units, Estimates, Work Orders, Invoices, Employees, Settings, role-based access (Admin / Office / Tech), all-language translation	\$9,500 build · \$299/mo	\$12,500 build · \$399/mo	Small shops leaving paper / spreadsheets
Growth <i>(default for most buyers)</i>	Everything in Essentials + Stripe Payments, Inventory, Schedule, Notifications, Media, Reports & CSV exports	\$14,500 build · \$449/mo	\$17,500 build · \$549/mo	Roadside, repair, towing, mobile mechanic
Complete	Everything in Growth + Messaging, advanced reporting pack, PM alerts pack, print/export polish, employee onboarding checklist	\$19,500 build · \$549/mo	\$22,500 build · \$649/mo	Fleet-heavy / multi-tech shops wanting full RoadReady parity

* On **Platform-only** builds, Leads still supports manual entry. Website → inbox automation requires **Full Stack** or adding the Website package later.

Year-1 total cost of ownership (list, Full Stack)

Tier	Calculation	Year-1 TCO
Essentials	\$12,500 + 12 × \$399	~ \$17,288
Growth	\$17,500 + 12 × \$549	~ \$24,088

Complete	\$22,500 + 12 × \$649	~ \$30,288
----------	-----------------------	-------------------

Still well below a typical custom rebuild (\$40k–\$100k+) and competitive with Fullbay + separate agency website for a multi-user shop.

Step 3 — What needs customization (pricing)

Included in every build (do not charge extra)

Item	Note
Logo, colors, company copy, services list	Standard brand apply
SEO setup for ranking (titles, meta, local/service structure, indexing-ready launch)	Included on Website only and Full Stack builds
All-language website & platform translation	Globe language switcher on the public site and staff ops platform; translates the full UI into 100+ languages. Included on every package (Website only, Platform only, and Full Stack — all tiers)
Domain connect or new-domain assistance	Client pays registrar
Turn agreed modules on/off	Removing unused modules is free
Simple terminology rename (e.g. truck → unit)	Label changes
Labor rate, tax, markup, payment terms	Settings configuration
Staff accounts + 1 launch training session (≤ 90 min remote)	Included
Stripe connection (if Payments selected)	Client owns Stripe account

Billable customization (add to build)

Customization	When to charge	List price
Extra website pages	Beyond package page set	+\$250 / page
Custom lead form / qualification flow	Beyond standard Request Service fields	+\$400 – \$800
Custom statuses / approval workflow	New estimate or job lifecycle steps	+\$600 – \$1,200
Custom field groups (customers / vehicles / jobs)	New data the client must capture	+\$200 / field group

Custom print / PDF layout	Estimate, WO, or invoice redesign	+\$450 / document
Custom report or KPI pack	Beyond Complete reporting	+\$750 – \$1,500
Additional staff role (4th+ permission set)	Beyond Admin / Office / Tech	+\$900 / role
Data migration (CSV)	Customers, vehicles, open jobs	+\$1,500 – \$4,000
Out-of-scope feature (portal, SMS, QuickBooks, GPS, etc.)	Only if signed into scope	Custom quote (\$2,500+)

Retainer add-ons (monthly or one-time)

Add-on	Includes	Price
Content hours pack	2 hrs/mo copy or page edits beyond care plan	+\$99/mo
Priority support	Same-business-day response target (business hours)	+\$79/mo
Extra training session	One-time remote	\$250 / session
Multi-location workspace	Second shop / brand instance	+60% of platform build & retainer

What the monthly retainer covers

Included

- Hosting & SSL for agreed environments
- Backups & uptime monitoring
- Security patches & dependency updates
- Bug fixes within signed scope
- **Unlimited staff user seats**
- Email support (business hours)
- Minor config tweaks (rates, hours, contact info)
- **Website packages:** ongoing SEO health (keep pages crawlable; update titles/descriptions when content changes)

Not included (quote separately)

- New features / modules outside signed scope
- Major redesigns or rebrands
- Stripe processing fees
- Domain registration, **paid search ads (Google Ads)**, managed Google Business posting campaigns
- Guaranteed keyword rankings or link-building retainers
- Third-party SMS / accounting / GPS tools
- After-hours emergency development

Do not promise without scoped custom work

These are **out of** the current RoadReady reference platform unless added as a custom line:

- Customer portal
- Customer e-signatures
- Automatic estimate / invoice email or SMS
- Payroll / time clock
- GPS dispatch
- QuickBooks sync
- Public appointment booking
- External calendar sync
- Purchase ordering
- Live third-party financing

Example quotes (sales playbook)

Prospect profile	Recommend	List quote	Talk track
Tow / roadside, 2–4 staff, paper jobs	Full Stack Essentials	\$12,500 + \$399/mo	Replace notebooks; website captures jobs into one inbox.
Diesel / repair shop wanting card pay + parts	Full Stack Growth	\$17,500 + \$549/mo	Vs Fullbay per-user fees + separate website — one private system.
Fleet PM provider, multi-tech, reporting	Full Stack Complete	\$22,500 + \$649/mo	PM alerts, messaging, full reports — RoadReady parity.
Already has a website; needs ops	Platform Growth	\$14,500 + \$449/mo	Keep their site; add branded staff platform.
Marketing first; ops later	Website only	\$5,500 + \$179/mo	SEO-built site for local ranking + leads now; clear upgrade path to platform.

Sample quote math (Growth Full Stack + light customization)

```

Build:    Full Stack Growth ..... $17,500
          Custom lead form .....    +500
          CSV customer/vehicle migration ..... +2,000
          -----
          Build total ..... $20,000

Retainer: Growth Full Stack ..... $549/mo

```

Payment terms (standard): **50% build at kickoff • 50% at launch**. Retainer starts at launch (or hosting go-live).

Discount & contracting rules

Allowed without escalation	Needs manager approval
Annual retainer prepay: 10% off (pay 12 months upfront)	Any build discount > 10%
Build: 50% start / 50% launch	Retainer below list for that tier
Prefer 12-month retainer commitment	Waiving migration or training fees
